It is something to his credit that he has succeeded in getting the universities recognition within a few months of his going to England. Submit to 2nd Councillor & if he agrees, consult the Senior Surgeon. Unofficially.

21 This is a case in which a dull student getting hopeless of securing a degree from an Indian University goes to Europe or America with the view of securing a cheap & inferior degree. There is nothing wrong in that But such "European qualification" should be taken at its true value.

and should be given to students who after satisfactorily finishing their training here want to go abroad for specializing in any branch. A student like this will never learn anything in England which a bright Indian medical graduate cannot learn in India. He will never become a superior medical man as it is the brain that is wanting.

23 In my opinion it would not be justifiable to spend Govt money in helping a student like this. By doing so the State will be wasting resources which might be utilized in helping a money deserving man who might become with his European training become a really valuable doctor.

Dear Sir,

With great difficulty, I managed to come away here nearly two months ago and I am glad to inform you that I was successful in getting through the L R C P & S (Edin). and L R F P & S (Glasg) with credit as I was the only ~~one~~ who passed in all the Subjects at the first attempt I am leaving this shortly for Dublin to join one or other of the well-known Maternity Hospitals there and specialise myself in Midwifery and Diseases of Women I am rather desirous later of specialising myself in Diseases of the Genito Urinary Organs which number more than 50% of the cases in the Hospitals, in case the Government of Mysore

approves of my choice and are pleased to grant me a Scholarship to enable me to do so I shall esteem it a great favor from you if you can kindly drop me a line advising me to take any Special Course you may deem it suitable for me and my country.

31 12 12

My Dear Sir,

On the eve of my departure from India in August last, I submitted my Scholarship Memorial to His Highness the Maharaja of Mysore through his Private Secretary Mr G H Campbell, C I E, to whom you were kind enough to give me an introductory note for which I thank you

I sailed from India on the 8th of August 1912 as previously arranged and learnt some time after landing here that the Government declined my application with regret Within a little over a month after my arrival here, I strived my level best to brush up all the

the 7 Subjects for the Final L R C P & S E
and was the only one that came out
successful in all the Subjects at the
very first attempt out of about 50
that went up for that Examination
in October last

I came here chiefly through
the help of my friends and I am
already indebted to them to a great
extent and it is hardly fair to take
undue advantage of their generosity
any more I have therefore resorted
to government help and have accord-
-ingly submitted a Memorial to
His Highness once again for recon-
-sederation, a copy of which I now
send you for your perusal and
Commendation

5

You know me as one of your old Students at the Madras Medical College some years ago, and I request you to be so kind as to commend my hard case to the benign consideration of Mr Campbell, C I E, Private Secretary to His Highness as I am quite confident your words go a great way with him

Thanking you in anticipation and wishing you all joy and happiness in the New year,

I remain,
My Dear Sir,

To,

His Highness,

Sri Krishna Raja Wadiyar Bahadur G C S I ,

Maharaja of Mysore

May it please Your Highness,

The humble memorial of D S Puttanna, B A , (Madras), I R C P. & S (Edinburgh) and I R F P & S (Glasgow), most respectfully showeth :-

1 That the memorialist, a humble subject of Your Highness' Dominions, before proceeding to England approached Your Highness with a memorial praying for a scholarship to enable him to specialise in Dental Surgery or any other subject or subjects that the Government may be pleased to prescribe, but he was informed by Your Highness' Private Secretary that the memorial had been transferred for disposal to the Secretary to Government, General and Revenue Departments, Bangalore No final reply having been received on his representation prior to the date fixed for his sailing, he had to leave India on the 8th of August 1912, providing himself with the usual Certificate of Identity and with such monetary help as he could procure from his friends and relatives and landed in London on the 27th idem, with a full confidence that his prayer for the grant of a scholarship would meet with a favourable consideration at the hands of Your Highness

2 As the memorialist had already undergone the full course of training for the M.B & C.M. Degree examination in the Madras Medical College and passed all the examinations appertaining to that Degree excepting only the final, the authorities of the Royal College of Physicians and Surgeons at Edinburgh, whither the memorialist has proceeded for further studies, were pleased

to

to exempt him from undergoing the preliminary course of studies once again and permitted him to sit for the triple final (L.R C P & L R C S.) examinations of Edinburgh and (L R F.P & S) examination of Glasgow about the middle of October There was thus scarcely a month and a half for the memorialist to brush up his studies and it was rather an uphill work for him to prepare himself for the ordeal It is therefore with no small degree of satisfaction that he ventures to lay before Your Highness the fact that from among the fourteen Candidates that came out successful out of about fifty that went up, he was the only one to satisfy the Board of Examiners in all subjects at the very first attempt and thus within this short space of time obtain the Diploma of "Licentiate of the Royal College of Physicians and Surgeons" of Edinburgh and "Licentiate of the Royal Faculty of Physicians and Surgeons" of Glasgow, a distinction never achieved by any Mysorean before

3 The memorialist has since received an Endorsement from the Secretary to Your Highness' Government declining, with regret, his application for a scholarship This has naturally caused memorialist great disappointment and anxiety and is likely to have a prejudicial effect on his future studies and progress Being far away from his country and Sovereign and prevented from laying his case personally at Your Highness' feet, the memorialist humbly begs to take the liberty of thus renewing his application for a scholarship and implores that, in the peculiar circumstances of his unfortunate case, Your Highness may be graciously pleased to consider his prayer favourably and issue orders sanctioning the grant of a scholarship as a special case

4 It is needless for the memorialist to submit once again that he is a member of a very backward community in Mysore none of whom has hitherto ventured to step out of his home. In fact he is the first graduate of the Devanga (Weaver) community of

Mysore

Mysore who, in spite of a good many obstacles and difficulties, has ventured to take such a bold step mainly with a view to earn a distinction in Medical studies and thus bring credit to his community as well as to his country He therefore most humbly implores that the generosity already shown by Your Highness in granting a scholarship to him throughout his career in the Madras Medical College may be kindly extended a little further by the gracious grant of a Europe Scholarship from the Damodar Doss charities or other Funds

5 As it is likely to take some time before his prayer can be graciously considered and granted, the memorialist has, in order that he may not fritter away his precious time, provisionally taken up the Practical Midwifery and Gynaecology courses in one of the well-known Lying-in Hospitals at Dublin the Home for Midwifery He has a desire to specialise himself in Genito-Urinary Surgery for which he finds ample facilities and material in some of the Special Hospitals here, solely devoted to that branch of Surgery So far as he is aware, there is no Specialist in the line in Mysore and therefore he believes he can be useful to the State The memorialist however begs to assure Your Highness' Government that he is ready to specialise in D P H or such other subject or subjects that may be prescribed as being suitable in the interests of the State and to bind himself to serve his Gracious Sovereign and Country for such length of time as he may be directed to do The College fees, Instruments, boarding, lodging, dress &c., may altogether require about £250 per year and the period for which the scholarship is to be tenable depends upon the special subject or subjects that may be ordered to be chosen, but in any case it cannot be less than one year or more than two years

6 There is hardly any need for the memorialist to add tha he is in absolute need of a scholarship at the hands of Your

Highness'

Highness' Government as he belongs to a poor family and has already run into heavy debts on account of the expenses incidental to his coming over and pursuing his studies here with the expectation of getting help from Your Highness' Government

7 The memorialist begs to submit copies of testimonials for Your Highness' gracious perusal

8 In conclusion, the memorialist humbly hopes that Your Highness will be graciously pleased to consider his case as a fit one for a generous treatment at Your Highness' hands and order the grant of a Damodar Doss or other scholarship for the period of his stay in Europe, for which act of generosity and kindness, the memorialist will remain grateful to Your Highness throughout his life

The memorialist begs to remain,
Your Highness' most obedient and loyal subject,

D S Buttanna

This is to certify that D S Puttanna is very well known to me as a student in this College since January 1898 when he joined our Fifth Form He did well in the High School classes having passed the Matriculation Examination in December 1899, and gained the 3rd Prize in the Sixth Form for general proficiency Thereafter he studied in the F A classes during 1900 and 1901 and passed the University F A. Examination in December 1901 He studied in the B.A classes during 1902-3 and maintained the excellent reputation which he had all along borne for regularity, earnestness in his work and intelligence He passed the B A , degree Examination of December 1903 taking a second class in Canarese and a third class in English but unfortunately failed in Physical Science though from his work done in that Branch he was fully expected to pass. He continued with us during 1904 and had no difficulty in completing his degree by passing in Science in 1904 In all his class work he was specially distinguished for the neatness and care with which he did it and if he is granted a Government Scholarship to enable him to study in the Medical College, Madras, I am confident that these characteristics will prove specially valuable as they are of first class importance in the Medical Profession

To,

His Highness,

Sri Krishna Raja Wadiyar Bahadur G C S I ,

Maharaja of Mysore

May it please Your Highness,

The humble memorial of D S Puttanna, B A , (Madras), L R C P & S (Edinburgh) and L R F P & S. (Glasgow), most respectfully showeth -

1 That the memorialist, a humble subject of Your Highness' Dominions, before proceeding to England approached Your Highness with a memorial praying for a scholarship to enable him to specialise in Dental Surgery or any other subject or subjects that the Government may be pleased to prescribe, but he was informed by Your Highness' Private Secretary that the memorial had been transferred for disposal to the Secretary to Government, General and Revenue Departments, Bangalore No final reply having been received on his representation prior to the date fixed for his sailing, he had to leave India on the 8th of August 1912, providing himself with the usual Certificate of Identity and with such monetary help as he could procure from his friends and relatives and landed in London on the 27th idem, with a full confidence that his prayer for the grant of a scholarship would meet with a favourable consideration at the hands of Your Highness

2 As the memorialist had already undergone the full course of training for the M B & C M Degree examination in the Madras Medical College and passed all the examinations appertaining to that Degree excepting only the final, the authorities of the Royal College of Physicians and Surgeons at Edinburgh, whither the memorialist has proceeded for further studies, were pleased

to exempt him from undergoing the preliminary course of studies once again and permitted him to sit for the triple final (L R C P & L R C S) examinations of Edinburgh and (L R F P & S) examination of Glasgow about the middle of October There was thus scarcely a month and a half for the memorialist to brush up his studies and it was rather an uphill work for him to prepare himself for the ordeal It is therefore with no small degree of satisfaction that he ventures to lay before Your Highness the fact that from among the fourteen Candidates that came out successful out of about fifty that went up, he was the only one to satisfy the Board of Examiners in all subjects at the very first attempt and thus within this short space of time obtain the Diploma of "Licentiate of the Royal College of Physicians and Surgeons" of Edinburgh and "Licentiate of the Royal Faculty of Physicians and Surgeons" of Glasgow, a distinction never achieved by any Mysorean before

3 The memorialist has since received an Endorsement from the Secretary to Your Highness' Government declining, with regret, his application for a scholarship This has naturally caused memorialist great disappointment and anxiety and is likely to have a prejudicial effect on his future studies and progress Being far away from his country and Sovereign and prevented from laying his case personally at Your Highness' feet, the memorialist humbly begs to take the liberty of thus renewing his application for a scholarship and implores that, in the peculiar circumstances of his unfortunate case, Your Highness may be graciously pleased to consider his prayer favourably and issue orders sanctioning the grant of a scholarship as a special case

4 It is needless for the memorialist to submit once again that he is a member of a very backward community in Mysore none of whom has hitherto ventured to step out of his home In fact he is the first graduate of the Devanga (Weaver) community of

Mysore who, in spite of a good many obstacles and difficulties, has ventured to take such a bold step mainly with a view to earn a distinction in Medical studies and thus bring credit to his community as well as to his country. He therefore most humbly implores that the generosity already shown by Your Highness in granting a scholarship to him throughout his career in the Madras Medical College may be kindly extended a little further by the gracious grant of a Europe Scholarship from the Damodar Doss charities or other Funds

5 As it is likely to take some time before his prayer can be graciously considered and granted, the memorialist has, in order that he may not fritter away his precious time, provisionally taken up the Practical Midwifery and Gynaecology courses in one of the well-known Lying-in Hospitals at Dublin the Home for Midwifery He has a desire to specialise himself in Genito-Urinary Surgery for which he finds ample facilities and material in some of the special Hospitals here solely devoted to that branch of Surgery So far as he is aware, there is no Specialist in the line in Mysore and therefore he believes he can be useful to the State The memorialist however begs to assure Your Highness' Government that he is ready to specialise in D P.H or such other subject or subjects that may be prescribed as being suitable in the interests of the State and to bind himself to serve his Gracious Sovereign and Country for such length of time as he may be directed to do The College fees, Instruments, boarding, lodging, dress &c , may altogether require about £250 per year and the period for which the scholarship is to be tenable depends upon the special subject or subjects that may be ordered to be chosen, but in any case it cannot be less than one year or more than two years.

6 There is hardly any need for the memorialist to add that he is in absolute need of a scholarship at the hands of Your

Highness' Government as he belongs to a poor family and has already run into heavy debts on account of the expenses incidental to his coming over and pursuing his studies here with the expectation of getting help from Your Highness' Government

7 The memorialist begs to submit copies of testimonials for Your Highness' gracious perusal

8. In conclusion, the memorialist humbly hopes that Your Highness will be graciously pleased to consider his case as a fit one for a generous treatment at Your Highness' hands and order the grant of a Damodar Doss or other scholarship for the period of his stay in Europe, for which act of generosity and kindness, the memorialist will remain grateful to Your Highness throughout his life

The memorialist begs to remain,
Your Highness' most obedient and loyal subject,

Dewan of Mysore

Esteemed Sir,

In submitting herewith a copy of my memorial addressed to His Highness the Maharaja praying for the grant of a Scholarship from the Damodar Dass or other Funds, I most respectfully beg to introduce myself as a brother of Mr D Rangadhyappa, Head Master of the A V School and Superintendent of the Industrial School, Dodballapur, who in his own humble sphere, has won encomiums from successive Dewans, Members of Council, Heads of Departments and others, and of Mr D C Subbarayappa, the first Law Graduate of the Devanga Community in Mysore, and a Clerk of the General and Revenue Secretariat for nearly 5 years and of your office since March 1912 I came here mainly with the encouragement and assistance afforded by Mr D Adeppa, the well-known Cloth Merchant Municipal Councillor and Honorary Magistrate of Bangalore and a few other sincere well-wishers, and with the fullest confidence that the Government of Mysore would be graciously pleased to grant me a Scholarship, as they

have been doing to many another candidate I have already been indebted to Mr Adeppa and others to a considerable extent and it is scarcely fair to take an undue advantage of their Kindness and generosity The only recourse I could possibly have for substantial help is your good self and I accordingly beg to take the liberty of approaching you with a prayer that you may be graciously pleased to send in your valued recommendation on my behalf to His Highness the Maharaja who is ever solicitous in the welfare of all subjects alike I belong to a very backward community and therefore beg for a generous treatment from your good self and the Government of our beloved Maharaja, so that my advancement may be an incentive to other members of my Community to come forward to avail themselves of the benefits of Education and thus become really useful citizens fit to act in the best interests of the State

As almost all the institutions have already begun their work, I beg you will be graciously pleased to intimate to me by means of a Cablegram to the care of Paroquet, London as soon as a Scholarship is sanctioned so that I may take up any particular branch of study recommended by the Government immediately without losing much time and valuable practical instruction

Begging to be excused for intruding on your aluable time and awaiting the favor of a generous treatment of my case at your hands,

I remain,
Esteemed Sir,
your most obedient & humble Servant,

Central College,
Bangalore

This is to certify that D S Puttanna is very well known to me as a student in this College since January 1898 when he joined our Fifth Form He did well in the High School classes having passed the Matriculation Examination in December 1899, and gained the 3rd Prize in the Sixth Form for general proficiency Thereafter he studied in the F A classes during 1900 and 1901 and passed the University F A Examination in December 1901 He studied in the B A classes during 1902-3 and maintained the excellent reputation which he had all along borne for regularity, earnestness in his work and intelligence He passed the B A , degree Examination of December 1903 taking a second class in Kanarese and a third class in English but unfortunately failed in Physical Science though from his work done in that Branch he was fully expected to pass. He continued with us during 1904 and had no difficulty in completing his degree by passing in Science in 1904 In all his class work he was specially distinguished for the neatness and care with which he did it and if he is granted a Government Scholarship to enable him to study in the Medical College, Madras, I am confident that these characteristics will prove specially valuable as they are of first class importance in the Medical Profession
